

The original
36" Riot Baton

No weapon has been so effective in dealing with riotous crowds as the 36" Riot Baton. It enables police to exercise restraint while exerting the necessary force to maintain order. Used offensively or defensively, it provides extreme flexibility in close combat situations. It's inexpensive! It's effective! Police departments throughout the country are adopting it as the standard riot control weapon.

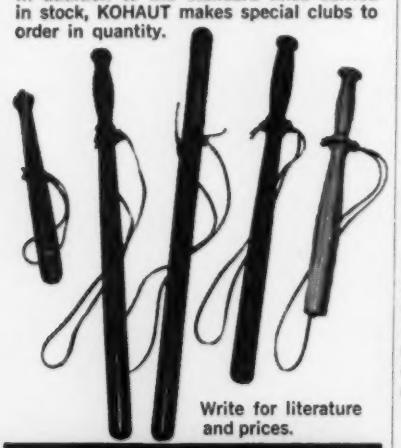

Lifetime Guarantee.

KOHAUT's 36" Riot Baton is made from choice cocobolo or domestic hickory. The cocobolo baton, which weighs approximately 28 oz. and is virtually unbreakable, is guaranteed for life if properly used. The hickory baton weighs approximately 20 oz.

Why wait for a riot to happen? Order a supply of KOHAUT 36" Riot Batons today and be prepared.

Complete line of nightsticks, billies and dress sticks.

In addition to the standard lines carried in stock, KOHAUT makes special clubs to order in quantity.

Write for literature and prices.

When You Need A SOUND Deputy

Your best deputy on emergency assignments is the lightweight headset from PPI — it delivers instant fail-safe communications and mates with all standard portable radios and walkie-talkie units. Here is hands-free communication (and we don't have to tell you how crucial that is in police work — especially when the going gets tough). Play it safe. Deputize the lightweight headset.

Touch and go!

Here's the newest touch for emergency vehicles . . . the UNITROL Electronic Console. One installation does everything. Plug it in and you're ready to roll.

Warning lights are controlled by a single Master Switch. The same switch coordinates flashing brake lights, headlights, horn ring, plus the 150 watt electronic siren built into the console. Touch it and go. Or touch the mike button. You'll have 40 booming watts of public address power whenever you need it. Even during siren operation. No other switches to push, pull or turn. Just the mike button.

UNITROL's radio mounting bracket is great. But wait till you see how the radio is controlled automatically for "Emergency Radio" transmit and receive operation. Or the clarity of calls broadcast over the outside speaker (any siren speaker will do).

What more can an 8½" wide box do? How about releasing a shotgun rack or trunk lid . . . turning on floodlights . . . cutting off brake and backup lights . . . locking/unlocking door locks. The UNITROL Electronic Console does all that and more!

It's the easiest, most uniform and fastest way you can equip your vehicles. About 50% faster! Put the touch on your equipment dealer

for a demonstration . . . or drop us a line.

DUNBAR-NUNN CORPORATION, 1108 Raymond Way, Anaheim, California 92801

Here are 16 good reasons to buy this machine

1. *Preparing for Civil Disorders
2. Planned Demonstrations
3. Mutual Aid and Coordinating with Other Agencies
4. Laws Pertaining to Civil Disorders
5. *Psychological Aspects of Crowd Control
6. *Behavior of the Individual in a Mob
7. Techniques of Agitators and Mob Reaction
8. Techniques of Mob Control
9. Handling Non-violent Demonstrators
10. Modern Searching Techniques
11. Basic Baton Concepts
12. New Baton Use for Mob Control
13. Types and Uses of Formations
14. Planning and Training for Use of Formations
15. Use of Chemical Agents
16. Insurrection and Sniper Control

*Also for Community Relations use.

The AVed Console shown above goes along with these sixteen lessons to provide a concise, easy to use audio visual training program on Crowd and Civil Disorder Control. Full-color slides automatically synchronized to cassette tapes get the message across quickly and easily. The lessons average twelve to fifteen minutes in length. They can be used for in-service training, recruiting, community relations presentations, or for special tactical squad training.

Don't wait until you're faced with a civil disorder to instruct your men on how to control it. There are so many good reasons not to.

For more information write: AVed Systems Group, 4818 Lincoln Blvd., Marina Del Rey, California 90291 or call area code (213) 823-7961.

EARN YOUR PROMOTION FASTER!

Learn Modern Methods of Crime Investigation and Finger Print Identification at Home— in Spare Time

FREE!
"Blue Book of Crime"
...tells the full story of I. A. S. training available to career police officers!

Advance More Rapidly through home study in latest crime investigation and finger print identification methods. Ever since 1916 the Institute of Applied Science has specialized in preparing ambitious police and security officers in the vital techniques of finger printing and identification. Today, over 800 American Identification Bureaus employ I. A. S. graduates. This training can open the doors to advancement in pay and rank. Many departments sponsor training with I. A. S.

Modern I. A. S. Course Includes:

- Finger Printing
- Firearms Identification
- Fundamentals of Criminal Investigation
- Identification of Handwriting
- Identification of Typewriting
- Police Photography
- Modus Operandi

The I.A.S. is an accredited member of the National Home Study Council and is approved for Veteran Training under the G.I. Bill.

High Velocity High Performance Ammunition for Police?

Should Police Departments adopt a high performance ammunition for their officers? Or should these law officers continue to use secondary, less efficient ammunition in the line of duty?

At Super Vel, we believe that a law officer whose personal safety is a secondary thought should be using the very best equipment.

Super Vel Ammunition, as proven by Departments world-wide, is the very best. Super Vel Police Ammo is designed for ultra-high velocities, the greatest glass, metal and rubber penetration, less recoil for more accurate rapid fire, controlled expansion and the lowest ricochet factor of any handgun ammunition.

Super Vel's are available in all police calibers (including firearms training ammunition), every caliber laboratory and field tested for performance.

Has your department adopted Super Vel Police Ammo? Don't you believe it merits some serious investigation?

Super Vel . . . Designed with Law Enforcement in mind.

GENUINE U. S. GOVERNMENT MILITARY ISSUE!

ORIGINAL U. S. M1 CARBINES

FOR SALE TO LAW ENFORCEMENT AGENCIES AND INDIVIDUAL POLICE OFFICERS

Light weight, fast handling and with negligible recoil, the M1 Carbine delivers a sustained high volume of semi-automatic fire with consistent accuracy . . . an ideal police support arm.

These carbines are all authentic, original U. S. production with original forged steel receivers . . . not post war assemblies from miscellaneous or surplus parts. All were manufactured for U. S. armed forces in compliance with rigid ordnance specifications insuring uniform strength and reliability.

This lot is reserved exclusively for law enforcement agencies. Order your requirement now while this limited supply is available.

CALIBER .30 M1 CARBINE

NRA GOOD

COMPLETE WITH TWO 15-ROUND MAGAZINES

ONLY **$46**

FOB Alexandria, Va.

IMPORTANT!

This special lot of carbines is available for law enforcement agencies and *individual police officers*. The *only* requirement for individual officers who wish to purchase arms or ammunition is written authority from his superior officer or supervisor stating that the firearm or ammunition is for official use in connection with his law enforcement duties. This authorization may be from sheriffs, chiefs of police, superintendents or other chief officers of State police units, State highway patrols, directors of public safety and unit commanders at *any* level of command. Firearms may be shipped, and title retained by, each individual officer or law enforcement agency at the discretion of the individual supplying the letter of authorization.

THIS IS THE SCRAMBLER THAT IS RESTRICTED FOR POLICE USE

Mated easily to all makes of 2-way radio equipment, the PD-101 renders radio broadcasts completely unintelligible to eavesdroppers, while providing clear, strong audio at scrambler-equipped units. Large choice of codes adds countermeasure security and offers extra "internal" privacy to specialty police teams.

Code modules, potted for security and color-coded for instant visual identification, may be removed whenever radio is unattended or changed quickly for countermeasure action.

Get all the facts on the PD-101. Clip the coupon and mail it today.

Here's the trouble free, highly accurate radar equipment that's priced right.

THE MUNI QUIP 1200 C SERIES

Featuring the new, exclusive electronic hold meter system

Check these design and performance features and you'll see why the Muni Quip 1200 C Series is the radar equipment you've been hoping to find—but haven't up to now.

- More accurate even at new increased ranges.
- Instantaneous hold—no mechanical clamping devices needed.
- Developed and tested in accordance with U.S. Military Specifications.
- Easier maintenance assures minimum downtime.
- Six inch, easy to read meter dial.
- Minimum controls and knobs.
- Quick disconnect antenna cable at rear.
- Modular construction for ease of servicing.
- All silicon transistors with outstanding temperature stability.
- Carrying case included.

There's a two year warranty on all parts and a one year warranty on the Klystron. And if you wish you may add these optional features: Vio-larm automatic alarm and hold. . E-Z-Cal—electronic tuning fork. . Graphic Recorder—continuous speed record. . Antenna extension cable with tripod for remote antenna operation.

See your Muni Quip distributor or write today for full information and a demonstration.

Whether they listen for kicks or for keeps...

YOU'VE GOT TO STOP THEM!

With the Controlonics PD-101 Radio Scrambler

The PD-101 system defeats the eavesdropper, whether he listens for kicks or for keeps. It switches the element of surprise, and helps police employ swift, selective, restrained force without fear of advance warning.

This is the radio voice scrambler hailed by police officials across the country as the lowest-priced, highest-quality system on the market. It is sold only on police authorization, and is designed specifically to meet the needs of modern police filed communications. *Get all the facts. Clip coupon and mail today.*

There's a big difference in uniforms. And the difference is Dacron®!

All uniforms are *not* alike. Just ask the guy who's worn uniforms made with Dacron* polyester, and he'll tell you how much better they are!

"Dacron" builds long-lasting neatness right into uniforms. They resist wrinkles, keep their creases no matter how rough the weather, how tough the job.

Second big difference: "Dacron" is extra-strong. So uniforms made with it wear extra-long.

And look extra-good all the while!

And, for all its strength, "Dacron" is light in weight. It makes uniforms more comfortable—ideal for all seasons.

Add it up. Uniforms with "Dacron" make officers look better, feel better. Ask for "Dacron" & worsted. You can't buy anything finer!

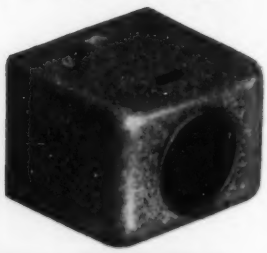

DU PONT
REG. U.S. PAT. OFF.

Better things for better living through chemistry

How to make your facts STAND UP in court
POLICE EVIDENCE Library

Prepared by America's foremost publishers in the field of law

Now, more than ever, the real test of your investigation lies in the courtroom presentation of your evidence! In six volumes edited especially for police officers and investigators, this unique reference set shows you step-by-step how to obtain and present your evidence more effectively. From traffic and case investigation to criminalistics, drugs and poisons, you'll find up-to-the minute discussions on the technical points of investigation, followed by a revolutionary question-and-answer presentation that shows you precisely how to substantiate your facts in court. Learn about the newest investigative methods such as voice print identification and neutron activation analysis . . . how to present films and photos as evidence . . . how to handle confidential informants . . . how to reconstruct an auto accident . . . and much more! Mail the coupon below for FREE 15-day examination.

Special Offer! Save $10.05! Order the complete set. Mail coupon today.

Gentlemen: Please rush me the following volumes of POLICE EVIDENCE LIBRARY for free 15-day examination. I reserve the right to return the books for any reason whatever without cost or obligation.

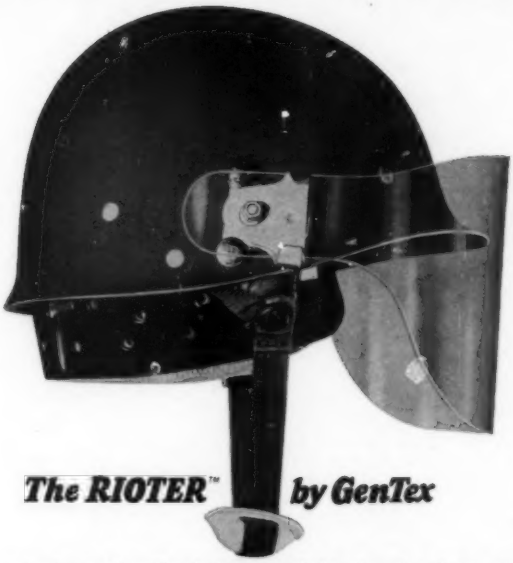

..... Complete 6-volume set $49.95 (Save $10.05)
..... Traffic Investigation. Two Volumes @ $9.50 ea.
..... Case Investigation. Two Volumes @ 9.50 ea.
..... Drugs and Poisons $9.50
..... Criminalistics $12.50

POWERFUL PROTECTION

The RIOTER™ by GenTex

Here's the most advanced police helmet available for riot duty. Its molded polycarbonate shell gives full head protection from clubs, rocks, bottles, pipes and other missles. If the helmet is twisted or pulled, the chin strap stitching will break away at approximately 50 pounds pressure to minimize the chance of neck injury. The rugged Rioter shell is fitted with a special GenTex shock-absorbing liner that prevents head-to-shell contact. The chin cup is supplied.

Washable, cool, well-balanced and comfortable, the Rioter weighs only 19 ounces. Molded-in no-peel colors available are dark blue, white and black. Optional accessories include a nape protector and detachable full-face transparent shield which can be raised and lowered easily. Stainless steel hinges lock the face shield in the down position or hold it in the up position.

PLUS THESE PROTECTIVE PRODUCTS

BALLISTIC BONNET™

New Ballistic Bonnet of 10-ply nylon and specially designed for the Rioter was tested by 12 rounds from a .38 cal. pistol with 4-inch barrel at 25 ft. Not one penetration!*

SAFETY SHIELD (Pat.)

A tough, transparent polycarbonate concave unit that guards the torso from thrown objects and physical abuse. With break-away leather arm strap, it's shatter-proof, rugged and light-weight. Decals furnished.

DEFENDER™

Police safety cap of high-impact polyethylene and designed for day or night patrols. Helmet exceeds Federal and ASA specifications. Comes with break-away nylon chin strap and chin cup. Several permanent colors available.

GENTEX SUBDUER™

Made of transparent polycarbonate the Subduer is a convex institutional device that handles violent persons quickly and humanely. Withstands almost any abuse. 24 X 48 inches.

SEAFARER™ VEST

(Pat.) Coast Guard approved rescue vest ideal for police wear in water patrol and rescue operations. Made of contour-molded polyvinylchloride it comes in safety orange color.

SEASCAPE™ RESCUE RINGS

(Pat.) Rot-proof, mildew-proof and fire-resistant, these C. G. approved rings of contour-molded PVC can be worn for face-up flotation. 1000-lb. test line cannot pull away. White or safety orange.

Unicoat™

by BEST UNIFORM CO., INC.

DESIGNED FOR TRIPLE DUTY TO KEEP BUDGET COSTS DOWN!

CHECK THESE FEATURES:

TWO-WAY ZIPPER FRONT with Snap Police Metal Buttons adjust for comfortable sitting. Gives easy access to gun and equipment worn under coat.

GUN OPENING: Concealed pocket opening allows gun to be worn on outside of garment with holster secured to standard gun belt underneath.

CONVERTIBLE COLLAR: Collar can be closed around the neck for maximum cold weather protection. Attachable high pile fur-like collar is available as an option.

NEW ZIPOUT LINER: Wind resisting, warmth retaining liner is super thin and light weight, so light, it will not change fit of coat when removed.

DRESS or DUTY STYLING: Finely tailored of 16½ oz. all wool elastique for the Dress Uniform look, yet designed for non-restrictive ease of movement for any duty assignment.

YOU NEVER HAD IT SO BAD BEFORE

OR SO GOOD

Riots, false alarms, rocks and bullets are almost routine today. And today, more than ever, you need all the help you can get. All kinds. And fast.

That's why we threw away some of our old ideas on 2-way radio design, came up with some new ones, and produced the first all-solid-state 2-way radio with *100 watts* of transmitter power.

But the RCA Series 1000 can do more than extend the long arm of the law. It's extra-reliable. We designed it with built-in protective circuitry to keep you on the air under operating conditions that would cause old-fashioned radios to quit. Like a voltage regulator to prevent damage caused by extreme fluctuations, and a thermal control to protect against high ambient heat levels.

NEW SERIES 1000, FIRST AND ONLY SOLID-STATE 100 WATT 2-WAY RADIO

When you're in a hurry, you start talking from a "cold" start and you won't drift off frequency. And battery drain is so low, it isn't even worth mentioning. You'll never have to worry about it.

So corner your RCA communications man and ask him about this new high reliability radio. And while you're at it, ask about our new warranty. It's pretty special, too!

Or, if you prefer, write RCA 2-Way Radio, Bldg. 15-5, Camden, N. J. 08102.

When Officer Quadrelle leaves his squad car, Kleinschmidt can take his messages.

Now there's a way to keep a patrol car operational even when it's empty. Install a Kleinschmidt Telescripter® under the dash.

This little machine prints out messages at the rate of 100 words a minute. Reports of crime. Addresses. Suspect descriptions. Officer Quadrelle can be on his way to another assignment as soon as he gets behind the wheel.

And when he's patrolling, he won't have to stop to take down reports of stolen cars. The Kleinschmidt Telescripter can do it.

A Telescripter patrol car unit fits easily under the dashboard and plugs into any two-way radio. And Telescripter messages offer this advantage over voice communications: they're not bothered by static or outside noise—even when the vehicle is moving.

For full details on the amazing new Kleinschmidt Telescripter, write to Kleinschmidt, Division of SCM Corporation, Deerfield, Illinois 60015. Telephone (312) 945-1000.

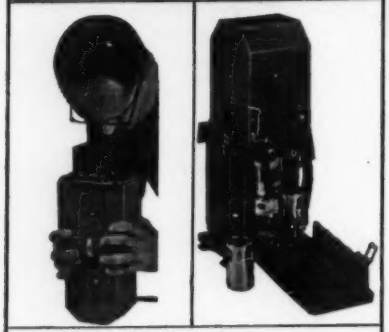

KLEINSCHMIDT

SCM®

FCC has adopted rules authorizing issuance of regular licenses for vehicular use of radioteleprinters in Police, Fire and Railroad Services, effective August 27, 1969.

In the next 3 minutes this officer will identify a narcotic on the scene with the NEW VALTOX I.D. Kit!

And, at less than 5c a test!

In the next 12 months he'll save his department countless trouble, money, man-hours, (and possible embarrassment) by separating the users from the innocent . . . **on the scene!**

Arm your men with VALTOX I.D. KITS! Give them the extra confidence, efficiency, and backup they deserve!

Professional narcotic chemists, and narcotic agents combined more than 28 years of experience, research, and teamwork to develop these new money-saving VALTOX drug and narcotic I.D. Kits.

VALTOX MASTER KIT: Contains eleven reagents for testing **Amphetamines, Opiates, Barbiturates, Cocaine, L. S. D., Marihuana, Hashish, Methedrine, S.T.P., Peyote,** and such common drugs as Aspirin, Antihistamines, Antacids, etc.

VALTOX CUSTOMIZED KIT: Contains testing equipment and your choice of any two testing reagents listed above.

Quality control and identification of VALTOX reagents is maintained through dating and serial numbers. Each reagent is contained in a color-coded, leak-proof, plastic bottle for squeeze-controlled dispensing of reagents. VALTOX Master Kits are made of unbreakable plastic, with carrying handles. All Kits contain testing reagents, a six-test plastic spot plate, a stirring rod, instructions, check lists, and plastic tubes for holding evidence or running individual tests.

Write for FREE 10 DAY TRIAL!

COMPLETE SERVICE AVAILABLE: VALTOX professional narcotic chemists also provide workshop seminars, counseling, expert witnesses, and laboratory service.

Leece-Neville builds police alternators. Specifically for the stringent demands of police work. We've built them for years. And they're built for years of service.

The 6600A keeps your police cars supplied with ready electrical power. Batteries stay charged to run lights, radios and other electrical equipment running on the scene for extended periods.

Cost is low and they're easy to specify . . . as original equipment or replacement units on all popular police cars. Several models to choose from . . . universal mounting and interchangeability. They're compact. Ruggedly constructed. Simple to maintain.

Matching regulators are also available. The 5016R regulator with germanium transistors. The 5022R for high temperature operation. Field relay 6014R fits both types.

On call or cruising, Leece-Neville provides the electrical power for rugged duty. Police duty. Write for complete technical information: The Leece-Neville Company, Emergency Vehicle Department, 1374 East 51st Street, Cleveland, Ohio 44103. Dept. LO-12

SAFARILAND

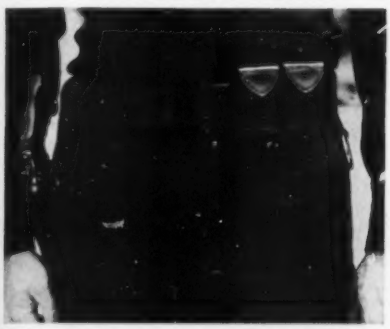

INTERNATIONALLY FAMOUS SAFARILAND— SERVING A WHOLE WORLD OF LAW ENFORCEMENT

In all the years of leather work and holster making, no other manufacturer has achieved leadership so swiftly as Safariland Leather Products Co. Its fame has lead to international distribution, after many direct purchases by foreign sportsmen, military authorities and the many overseas police agencies that pattern themselves after American law enforcement forces. Safariland is continuing development of new answers to the problems of enforcement officers everywhere — the Model 95 Buckleless Police Equipment Belt, described in detail below, with its equipment. Designed to be the lightest, most compact full-duty law enforcement belt available, the Model 95 is actually the basis for an equipment "system" composed of specially designed components. With the buckle target neatly removed and a slim contour established, the 95 also mounts a full complement of slimmed and lightened accessories, also shown below.

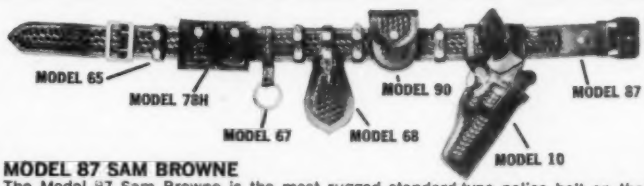

The patented Safariland Sight Track is one of the keystones of Safari's design superiority. Adding great frontal strength to any holster incorporating it, the Sight Track will protect even the most radical front sights from harm.

MODEL 95 POLICE EQUIPMENT BELT

Users everywhere rate this as the biggest breakthrough in police leather in over a century. Extremely clean looking because the buckle is gone and all excess weight is pared off. This trim, functional belt is **$15.95** in the plain model; **$17.95** with basket stamping, lining included with both. This belt has a tough nylon web and velcro tape lining for strength and security. The inner velcro lining mates with the Model 99 velcro-covered under-belt which positively eliminates the need for old-fashioned keepers. Add 50 cents per inch for sizes over 42". This belt is a natural choice for any force that desires the smoothest possible belt that can stand up to the rigors of everyday law enforcement duty.

MODEL 87 SAM BROWNE

The Model 87 Sam Browne is the most rugged standard-type police belt on the market today. Fully lined with Orthopedic Elk non-acid-tanned leather, this 2¼-inch belt will stand up to years of hard use. **$15.95** plain; **$17.95** basket. A complete line of equipment is available, in both lightweight and standard types. Shown are Model 65 Double Snap Keepers, plain, **80 cents**, basket **95 cents**; Model 78 Double Dump Box, plain, **$6.50**, basket **$7.50**. Specify Model 78U for unhinged style. Plain **$5.50**; basket **$6.50**.

MODEL 11 SWIVEL HOLSTER

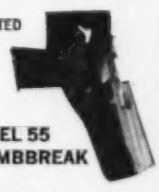

PATENTED

Features blind swivels and snap. 2¼" belt loop. 4" plain **$16.50**; basket **$17.50**; 6" plain **$16.95**; bsk **$17.95**; Lining **$5.95**.

MODEL 55 THUMBBREAK

PATENTED

Fastest duty holster ever. Metal reinforce thumb break. Fits all large autos. 2¼" belt loop. Plain **$17.95**; bsk **$18.95**; lining **$5.95**.

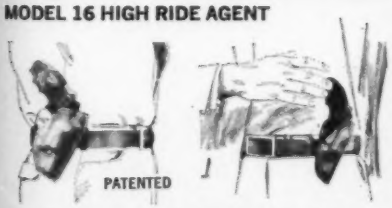

MODEL 3 HIGH RIDE

PATENTED

For large frame autos. 1¼" belt loop. Plain **$9.95**; basket **$10.95**; lining **$4.95**.

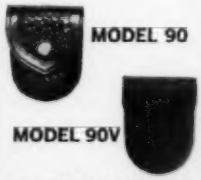

MODEL 16 HIGH RIDE AGENT

PATENTED

For small frame 2" and 3" revolvers without adjustable sights. Rides high and close to the body. 1½" belt loop. Plain **$8.95**; basket **$9.95**; Lining **$4.95**. For 3" revolvers add **$1.00**.

CUFF CASES

A revolution in cuff cases, smallest ever but fits all cuffs. Plain **$5.25**; basket **$6.25**; Velcro ad **$1.00**.

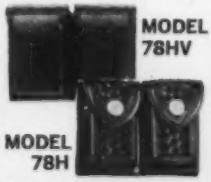

MODEL 19 AGENT

PATENTED

For all 2", 2½" and 4" revolvers — Lining standard Brown only. 2" **$16.95**; 2½"-3" **$17.95**; 3½"-4" **$18.50**.

DOUBLE DUMP BOX*

Slimist dump-box ever. Hinged—plain **$6.50**; basket **$7.50**; Unhinged—plain **$5.50**; basket **$6.50**.
